A full-page photograph of Arnold Schwarzenegger. He is wearing a green button-down shirt and brown pants. He has a grey beard and is looking directly at the camera with a serious expression. He is holding a black and red PARKSIDE cordless drill in his right hand, with the drill bit pointing upwards. A black battery pack is attached to the bottom of the drill. He is also wearing a silver watch on his left wrist.

Hello, PARKSIDERS!

Looking for inspiration for DIY projects and other jobs? You're in the right place! Read on for ideas, instructions and lots of motivation. Let Arnold guide you and give you the energy you need to do it yourself! Our tip: do it!

Your PARKSIDE team

Leaves fall, ideas grow

Autumn in --- your garden

Equip your garden with the must-haves of the season

01 High-pressure washer

Protect terraces and garden paths from frost damage.

02 Plant trolley & fleece covers

Move tub plants in for the winter or use fleece covers to protect against the cold.

03 Leaf blower

The easy way to remove leaves and keep paths clear – for a safe, tidy garden.

04 Cordless hedge trimmer & cordless pruner

Work fast and effortlessly with our rechargeable power tools.

Useful tips

Autumn means self-sufficiency

Make the most of your autumn harvest

The time is ripe for your **DIY pantry**: PARKSIDE heavy-duty shelving gives you **storage space** for your preserves & more.

Be part of the circular economy

Well-mixed compost decomposes faster. Use the PARKSIDE garden bag to gather leaves and **boost** your compost with carbons.

Care for your plots and dry herbs

Clear up **your plot** with the PARKSIDE hand spade and harvest the last herbs of the season. Bundle them and dry them upside down for **healthy flavours** in your winter cuisine.

Zero waste: be smart with water

Autumn is wet – perfect for using water **sustainably**. The PARKSIDE rain barrel lets you store **rainwater and residual water** for your garden.

The pumpkin cycle

From pumpkin to seed and back again

Pumpkin carving: how it works

A **sharp knife** and a stable base are essential for pumpkin carving. Cut open the pumpkin, scoop out the insides, and sketch your design. Then use a sharp knife to carefully carve the pumpkin. To make your **artwork** last longer, rub Vaseline or lemon juice on the cut surfaces.

Pumpkin decor: for the golden season

As a spooky Jack-o'-Lantern Halloween or stylish autumn décor, pumpkins always make a **good impression**. Combine them with **fairy lights** or **dried flowers** for an eye-catching look.

The perfect pumpkin harvest

Harvest at the right time for a long-lasting taste. If the shell sounds hollow when you tap it, the pumpkin is ripe!

Growing pumpkins made easy

Nutrient-rich soil, lots of sunlight and space for long vines will help your pumpkin thrive.

Sustainable use

You can use every part of a pumpkin: from fruit flesh for soups and oven vegetables to roasted seeds as a snack.

New pumpkins from old seeds

Dry the pumpkin seeds, store them in a cool place, and simply plant them again in the spring.

Tool check

Mowing has never been smarter

Work less, enjoy more

The PARKSIDE robot lawnmower will keep your lawn in perfect shape with no manual effort.

Lawn basics

For lush, green grass

Regular mowing
(every 7-10 days in
season)

Mowing
height:
4-5 cm

Change the
mowing
direction
regularly

Never cut more
than 1/3 of the
grass height at
one time

Simple hacks

Organise like a pro

If you would rather work than search

The small parts storage unit helps you keep track of things. The PARKSIDE interlocking organiser can be stacked and combined flexibly, while the tool trolley and assortment case help you easily switch between projects – and remember: tidying out every season saves you space and spares your nerves.

What do they all have in common?

Right! Great ideas, lots of joy, creativity and, of course:
the right PARKSIDE tools.

Take the test

What kind of craftsperson are you?

01: It's Saturday – what do you do first?

- a.** Drive to the DIY store and buy everything on my shopping list.
- b.** Go to the workshop and try out my newest tool!
- c.** Head to my garden to plant, dig and revamp.

02: What does your perfect workplace look like?

- a.** Surrounded by tools, sawdust and good ideas.
- b.** Outside with lots of green and fresh air.
- c.** Tidy and efficient with the exact tools I need.

03: How do you handle new challenges?

- a.** I just try it out. The garden is very forgiving.
- b.** Learning by doing. I'll figure out how to put it together somehow.
- c.** Research, planning, implementation – step by step.

04: What situation describes you best?

- a.** Your tool wall is labelled and everything is in its place.
- b.** Your friends always ask you to help them with their building projects.
- c.** You built a greenhouse from an old window frame.

The easy way to change your tyres at home

01: Secure and prepare your car

Pull the handbrake, put into gear, chock the tyres and **loosen the wheel nuts slightly**.

03: Mount the winter tyres

Mount the winter tyres and tighten the wheel nuts slightly **crosswise** with a ratchet wrench.

02: Jack your car and remove the wheel

Position the car jack, jack up the car, loosen the wheel nuts, **remove each wheel** and mark its position.

04: Lower the car and do a final check

Lower the car, **tighten the wheel nuts fully**, check the air pressure and tighten the nuts again after 50 km.

Long-lasting power to get your project in top shape!

One rechargeable battery, more than 100 devices.

If you give it your all in training, you won't settle for half measures in your craftsmanship. Whether power drill, screwdriver, saw or lawnmower, the X 20 V Team gives you **power** where you need it.

Wireless **freedom of movement** gives you maximum **flexibility**.

Craftsmanship is training

More than work – craftsmanship is a real workout!

01: To strengthen your back

Deadlifting is a full-body exercise. Repeat them in three sets and ten repeats each.

02: Hang loose on the wall bars

Hang loose for 30 to 60 seconds to relieve your spine.

Busy and fit!
